**Subject:** Grapefruit Testing  
**Attachments:** GF Method Validation Communication to EPA and FDA 060216.pdf

Hello,

Attached is a communication about PDP's grapefruit testing. At our November 2015 PDP sampling meeting, we agreed that PDP should communicate to EPA and FDA which compounds that we are unable to test using our current methods. The attached memo lists the compounds that have tolerances, but were unable to be validated through the MRM in grapefruit.

Please let me know if you have any questions.

Best regards,  
Diana
